Philadelphia
Aug 30. 1846

Dear Sir,

Will you pardon the liberty I
take in requesting your aid to
obtain an eminent scientific
individual. Professor Müller
Müller of Berlin is very desirous
to possess a specimen of the genus
"Amia" found in the rivers of
Carolina, and in Lakes Erie and
Ontario and called there Lake
Lawyer and Dogfish. He
wishes it to be in alcohol in order
that he may examine it anatomi-
cally.

Professor Müller would gladly
make an exchange from his extensive
Cabinet of some other similar
specimen; and as an equivalent
a copy of the Systematische Be-
schreibung der Plagiostomen

von Müller u. Aente, Berlin
18m: which hexap is almost
unknown in America, and cost
in the Book stores 32 dollars.

I hope you be able to obtain
for Professor Müller such a
specimen, and have it transmitted
to him directly to me, it would
be subserving the cause of science,
and be very gratifying to dear Sir
Yours obedt. humble Servt.

Rebly Douglas
